

Data Analyst who bridges data, business, and people. Skilled in modern data platforms including Power BI, SQL, Excel, Python, Microsoft Fabric, Power Query, data modelling, and data quality. Proven experience solving complex data problems and developing end-to-end data solutions that inform business decisions across nonprofit and commercial sectors. I also build agentic AI solutions that interpret business questions, retrieve relevant data, and generate structured, data-grounded answers for decision-makers.

TECHNICAL SKILLS

Analytic & Reporting: Power BI, DAX, Power Query, Excel Power Pivot, advanced formulas, dashboard design, KPI and metric development

Systems context: Dynamics 365 Dataverse/CRM, ServiceNow, SAP, SharePoint, Shopify, POS systems

Data Platforms & Systems: Microsoft Fabric, Dataflow Gen2, Lakehouse, OneLake, Azure, SQL, Dataverse, SAP, Dynamics 365 CRM, Google BigQuery, Looker Studio

Data practice: Data validation, data modelling, documentation, process mapping, trend and anomaly analysis, calculated tables, forecasting, data quality checks, workflow improvement

AI & Automation: Generative AI, AI-assisted analytics, prompt engineering, Microsoft Copilot, workflow automation, and prototyping agentic AI workflows that answer natural-language managerial questions using structured business data

Documentation & Collaboration: Confluence, Miro, Jira, ClickUp, Zapier

CORE STRENGTHS

Business, project and data bridge: Translate ambiguous business or project questions into clear metrics, process maps, architecture documents, and plain-language insights for both technical and non-technical audiences.

End-to-end analysis and reporting delivery: Take data from source-system mapping and quality checks through to Power BI/Excel reporting, documentation, and decision-ready outputs that support project teams, stakeholders, and service outcomes.

Adaptability and continuous improvement: Ramp up quickly on new tools, systems, and domains, combining hands-on operational experience with modern analytics platforms such as Power BI, SQL, Python, Microsoft Fabric, and practical AI-assisted analytics.

PROFESSIONAL EXPERIENCE - NEW ZEALAND

Data Analyst - Business Optimisation (Full-time Internship) | Kordia New Zealand | Apr 2026 – Jun 2026

- Reviewed billing and exception-reporting pain points across Business Optimisation department, including limited source visibility, complex semantic model dependencies, overlapping use cases, and manual validation effort.
- Mapped and documented source-to-report data flows across CRM, SAP, ServiceNow, Datagate, SharePoint, Microsoft Fabric, and Power BI to improve traceability and source-of-truth clarity.
- Created business-readable architecture documents, reporting flow diagrams, and process notes to support clearer project and operational decision-making.
- Redeveloped a cross-source data model and refined complex DAX logic to support billing, reconciliation, and exception-reporting use cases.
- Proposed and prototyped a trial Microsoft Fabric ecosystem with centralised storage, reusable tables, and a Power BI solution demonstrating improved visibility, reconciliation, validation, and reporting quality.
- **Key Achievement:** Designed a future-state Microsoft Fabric reporting architecture using Dataflow Gen2, Lakehouse storage, pipelines, and reusable reporting tables to improve traceability, maintainability, and reporting reliability.

Data Insights Volunteer (Part-time) | Tearfund New Zealand | Dec 2024 - May 2025

- Built Excel and Power BI reports for Marketing and Partnership teams, improving access to donor, campaign, and performance insights.

- Developed Microsoft Fabric dataflows and pipelines for automated reporting and repeatable data preparation.
- Developed a quarterly forecasting model and analysed donor trends, RFM segmentation, engagement patterns, and performance tracking to support planning and decision-making.
- Built an interactive donor mapping dashboard by combining donor records with external geospatial datasets, including LINZ suburb boundary data and OneRoof property data, to visualise donor distribution across 1,000+ New Zealand suburb boundaries and support location-based segmentation.
- **Key Achievement:** Delivered interactive dashboards integrating multiple data sources and quarterly forecasts, improving reporting efficiency, data accessibility, self-service insight, and planning support for business teams.

Data Management Consultant (Contract) | Norris Echetebe Law, NZ | Oct 2024 - Jan 2025

- Reviewed client file and data management pain points resulting from inconsistent data handling and limited structure.
- Designed a data management solution using Excel, Power Query, Power Pivot, and validation rules.
- Documented repeatable processing and validation procedures to maintain ongoing data quality.
- **Key Achievement:** Resolved a long-standing data challenge by creating a user-friendly reporting workflow that improved data consistency and day-to-day efficiency.

Data Evaluator (Contract) | Peroptyx Ltd, NZ | Jul 2023 - Jan 2024

- Reviewed and validated AI-generated location and business data against defined quality standards.
- **Key Achievement:** Supported reliable NZ-specific outputs by assessing data accuracy, completeness, and consistency across location and business records.

Business Partner | Vegeland Market Ltd, NZ | Sep 2017 - Sep 2022

- Managed POS, Shopify, sales, and inventory data to support stock visibility, retail performance tracking, and operational decisions across physical and online channels.
- **Key Achievement:** Supported migration from manual registers to a POS system, improving sales and inventory data capture and contributing to 20%+ revenue growth through better retail visibility, stock control, and operational decision-making.

EDUCATION

- NZQA Level 6 - Diploma in Data Analytics, Mission Ready HQ | Jun 2026
- NZQA Level 7 - Business Intelligence in Analytics, Future Skills Academy | Jan 2024
- Master of Social Policy, The University of Melbourne | 2016
- Bachelor of Computer Science, Royal University of Phnom Penh

CERTIFICATIONS & TRAINING

- NZQA Level 7 – AI & Digital Skills for the Workplace, AcademyEX, New Zealand | Aug 2025
- Data Analytics in Google Cloud, Google | Jun 2025
- Excel for FP&A, LinkedIn & PMI | Sep 2025
- Data Analytics with BigQuery & Looker Studio | Aug 2024
- Python Statistics | Aug 2024
- SAP ERP Essential Training - LinkedIn Learning | Aug 2024

COMMUNITY & PERSONAL DEVELOPMENT

- Bilingual Interpreter, TransNational NZ - supporting people facing language barriers
- Member of the Upper Harbour Ethnic Advisory Group
- Continuous learning in data analytics, data engineering, cloud platforms, responsible AI, and agentic AI for business intelligence workflows
